

STOTT PILATES®

# RM2 Peripheral Joint Stabilization: Matwork

STOTT PILATES® developed its Rehabilitation Program specifically for professionals who assess, diagnose, treat, and prescribe exercise for the rehabilitation and/or prevention of injuries, providing them with training to integrate Pilates into their practice.

the next step

RR1

Having completed Matwork you are eligible to pursue Reformer. Try RR1 followed by RR2

RR2

Building on the biomechanical and stabilization principles learned in RM1, the RM2 module places emphasis on exercises designed to prevent and rehabilitate common injuries by balancing and strengthening muscles around the joints in order to restore and maintain healthy movement patterns. Emphasis is on core stability while mobilizing the peripheral joints. Typically courses are conducted over three days.

#### Instructors Learn:

- Review of the STOTT PILATES Five Basic Principles
- Identification of proper execution and movement patterns
- Effective verbal cueing and imagery
- Clinical problem solving using the STOTT PILATES method
- A focus on injuries of the shoulder, elbow, wrist, hip, knee and ankle
- Over 25 exercises plus multiple modifications

#### Prerequisites:

- RMR1 or RR1

#### Requirements of Certification:

- 18 hours of instruction and supervised teaching
- minimum 6 hours observation
- minimum 10 hours physical review
- minimum 10 hours practice teaching
